

 **Dear mom:**     

**I don't know where to start
because there is so much to say
I use to to hate you for always being too busy at
work, but now that I've grown up I realized that
everything you do is for providing a better life
for us! Mom, thank you for choosing
to forgive me during our
countless fight. I love you!**

  **Happy mother's day**
